

Lettering with Calligraphy pen

Nature not only inspires to paint and draw. You can also find great phrases about the feeling of hiking freely in nature, which are ideal for a lettering project. Maybe during your next walk through the woods, you will have a brilliant idea for your own lettering slogan.

Step-by-step tutorial

1

Gently sketch your phrase and all ornamental elements with a pencil. In this step you can easily make corrections in the overall composition and in the letter design.

2

Now write with the thicker calligraphy tip and use matching colours. Make sure that the pencil is well held and guided so that the typical calligraphy effect of thick and thin lines can also be seen using the thick tip.

3

With the thin tip of the corresponding colour you can now design the letters further. With double lines or additional swing and decorative lines.

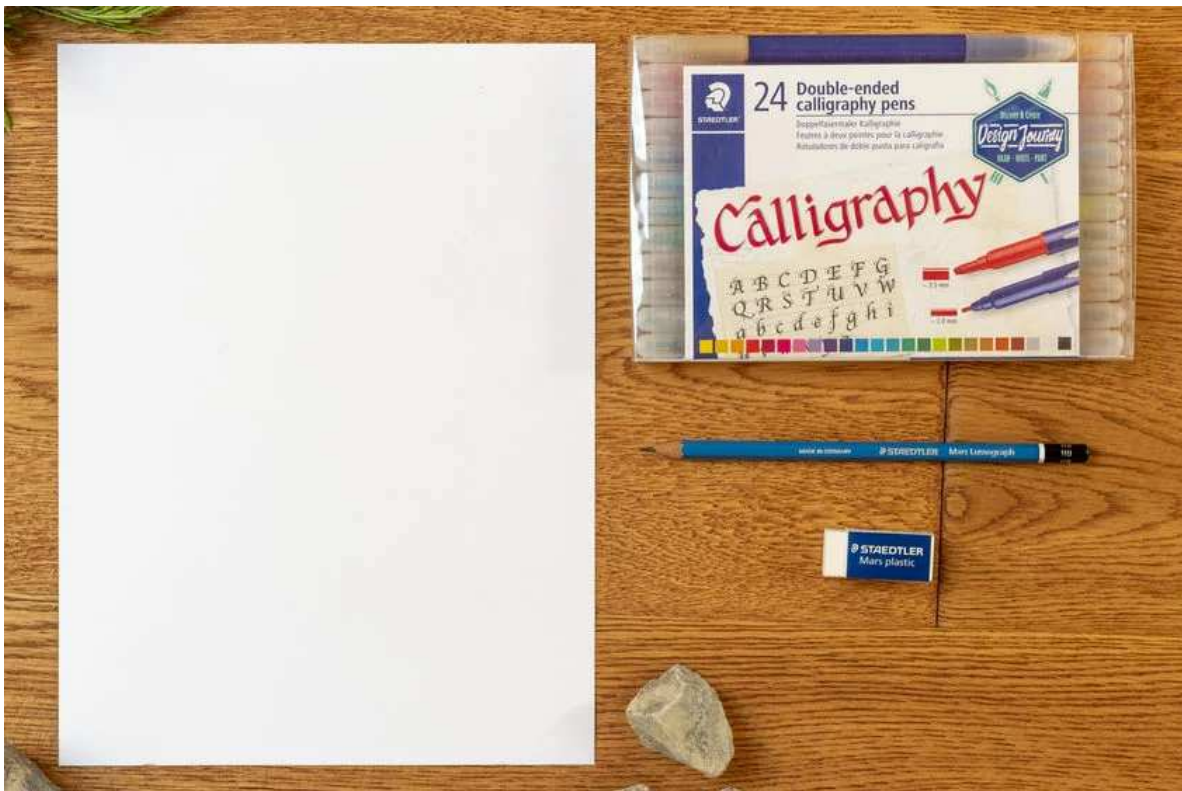

4

Now draw all ornamenting elements like mountains, the sun and arrows.

Finally, carefully erase all visible pencil lines.

Material overview

What you need

Product	Article no.	Quantity
Mars® Lumograph® 100 Drawing pencil - Single product HB	100-HB	1
STAEDTLER® 3005 Double-ended calligraphy pen - Wallet containing 24 double-ended calligraphy pens in assorted colours	3005 TB24	1
