Step-by-step tutorial

1

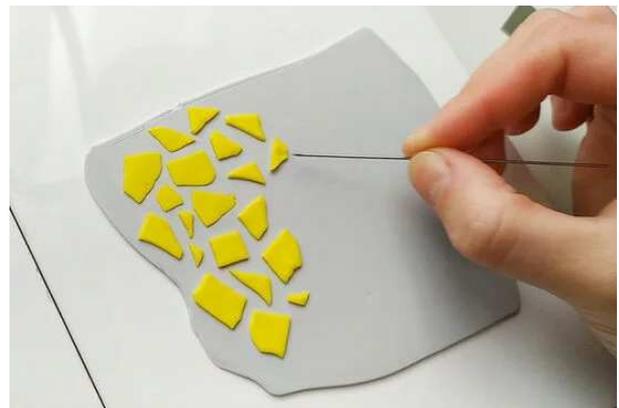

To create your FIMO earrings you need one block of FIMO soft lemon and FIMO soft dolphin gray.

Roll the FIMO blocks out into sheets of the same thickness, e.g. 4mm thick. Cut FIMO soft lemon with a blade or a sharp knife into pieces of different shapes and sizes.

Tip: Work in progress and left-over material should be protected against sun and heat and can be stored in a screw-top jar or in cling film to protect it from dust and dirt.

2

Use a needle to place the previously cut out yellow pieces onto the gray FIMO soft sheet. Roll over it now with gentle pressure with an acrylic roller.

3

Cut out some forms with a round cutter.

To design your earrings, you need three pieces for each earring. Make a hole in the top and bottom of 2 pieces of FIMO with a needle or an awl and just one hole in the third piece of FIMO (only on the top).

Now, you can harden everything by hardening the FIMO laying flat in the oven at 110 ° C / 230 ° F for 30 minutes on upper / lower heat.

4

Leave all the pieces of FIMO to cool down. With the help of the connecting rings, you can assemble the forms into the earrings.

And you're done! Now you can try on your fashionable earrings in the trend colors.
