STAEDTLER®

ZENITH®

Quality is always a matter of details. Small springs, which apply small mechanisms. It is the care and passion for the small details which make each Zenith product unique.

Desk Staplers

Zenith® 501/E

A desk top stapler that combines the best features of the entire Zenith range: reliability, precision, strength, elegance, easy loading system, easy stapling and tacker capabilities.

- This desk-top tool provides extra comfort thanks to the redefined ergonomics of the base and short distance from the bottom to the upper surface of the cap.
- This high quality stapler is comprised of a metal body, an anti-jamming device, an anti-sliding rubber base, an ABS anti-shock cap and mechanical parts.
- It also features lead free enamel painting, causing it to be highly resistant to wear and corrosion.
- Fits staple types 24/6 and 26/6 (Zenith 515-115 and 512-112) and has a loading capacity of 100-150 staples.
- Can staple up to 20 sheets (80g/mq).

Staple-removers

Zenith® 580

Unique for its technical and aesthetic perfection, accuracy, high degree of finishing and its well-researched handle design. Zenith 580 is a piece by piece quality tested tool, with a life-long guarantee for manufacturing defects.

- The steel parts, which extract the staples, allow this remover to maintain its exceptional performance over the years.

Zenith® 130/E
Exceptional staples due to the high quality plain wire, and the particular grinding of the legs, which ensures better penetration.
- Staple legs are 4 mm in length and come in boxes of 1000.
