

Head of ideas.

Hygge tea light

Say farewell to stress – in the simplest possible way!

The world we live in seems to be getting more and more hectic. Hygge counterbalances the stresses of daily life: let your cares take a back seat, enjoy the moment and find your centre again. It's easy to do with a home-made hygge tea light made from FIMO soft. Its knitted look creates a cosy candle-lit mood in no time.

Step-by-step tutorial

1

Roll four cords 5mm thick from each of 2 blocks of FIMO soft, one in dolphin grey and one in white.

2

Twist the two cords of the same colour round each other in a clockwise direction.

3

Do the same with the other two cords but twist them anti-clockwise.

4

Now lay the two twisted cords lengthways next to each other and press together to create the knitted look.

5

Press the knitted strips around the tea light, with the white at the top and the grey at the bottom.

Cut off the leftovers.

6

Now harden the tea light for **30 minutes in a preheated oven at 110° C / 230° F on upper and lower heat.**

Make sure you use an oven thermometer so that you can be certain the temperature stays constant at 110° C / 230° F.

Tip: Work in progress and left-over material should be protected against sun and heat and can be stored in a screw-top jar or in cling film.

Material overview

What you need

Product	Article no.	Quantity
FIMO® 8700 04 Blades - Blistercard with mixed blade set, 3 pieces (1 rigid, 1 flexible and 1 serrated blade), 2 rubber grips	8700 04	1
FIMO® 8700 22 Oven thermometer - Blistercard containing 1 Oven thermometer	8700 22	1

Additionally required:

smooth working surface (glass or ceramic), round tea light
