Step-by-step tutorial

1

Roll FIMO in the colour of your choice into a plate with a thickness of about 1 cm using the acrylic roller.

Tip: Unfinished items and left-over bits of material can be stored in a sealed plastic bag or airtight container, e.g. a plastic box or jar.

2

Place the palm leaf on the FIMO. Roll the acrylic roller over the palm leaf so that the shape is impressed in the FIMO.

3

Now cut out a circle with the round cookie cutter where the imprint of the palm leaf looks particularly pretty.

4

Finally harden the coaster in the oven at 110 degrees Celsius for 30 minutes. Done!
