### **Trendy Tropical - South-Sea Feeling with FIMO**

Flamingo, pineapple and co... Let's bring the summer in our homes with tropical accessories and decorations made of FIMO. In bright pink, tropical green or radiant yellow - colourfully mixed, these exotic colour nuances will instantly lift our moods. As cocktail spits for a garden party or gift tags - these pretty flamingos in bright pink are real eye-catchers and ensure a holiday feeling.

## Step-by-step tutorial

1

First, roll out the pink FIMO with your acrylic roller - a little thicker than you want your flamingo to be in the end.

2

Then cut out the flamingo shape with your flamingo cookie cutter and remove the excess FIMO.

3

Now cut off the legs and beak of your flamingo with a knife.

4

Then roll out the FIMO in the colours blossom and black to a plate of the same thickness and cut off smooth edges with a knife.

5

Place the black FIMO where the legs should be and a piece of half-black, half-blossom at the beak.

6

Place the baking paper over the flamingo, smooth it out and roll over it with the acrylic roller. This prevents the dark FIMO from bleeding over onto the lighter one.

7

Then take your cookie-cutter again and cut out the flamingo. Remove the residues. Now harden the flamingo in your oven for 30 minutes at 110 degrees Celsius.

**Tip:** Unfinished items and left-over bits of material can be stored in a sealed plastic bag or airtight container, e.g. a plastic box or jar.

8

After baking, the finished flamingo only needs to be glued to the glass rod. Done!
