

Head of ideas.

Flower earrings made of FIMO

Let's get floral!

These earrings are synonymous with sunny, happy days. Elegant yet cute and feminine at the same time – the combination has it all! These floral earrings are an absolute eye-catcher and can be used in many different ways. Whether as a little gift for mum, a gift for a girlfriend or as a new piece of jewellery for your own jewellery box – they are always the perfect choice and ideal for any occasion.

Step-by-step tutorial

These pretty flower-designed earrings require three different FIMO soft colours: pink grapefruit, morning breeze and pistachio nut.

Cut half a strip from each colour. You need a strip of morning breeze. Now knead each colour individually with your hands until it is nice and soft. Take the ear hangers and fill out the shape provided with FIMO soft morning breeze.

Roll the rest of the FIMO morning breeze mass into an even string and divide it into 10 equal pieces. Shape a small ball from each of the 10 pieces.

3

To shape the leaves of the flowers, you can cut small pieces from the FIMO soft pistachio nut mass, shape into a droplet and carefully flatten it between your fingers.

4

To shape the petals, take the pre-made small balls and the modelling tool, which has five edges.

Press the modelling tool into your balls to create the basic shape of the petals.

5

Take the cutter and cut vertically into the flower along the line. Repeat this step for all five lines of your flowers.

6

Gently press the petals apart with the modelling tool to create a flower.

7

Now use the beading needle to first place the leaves and then the flowers in a circle on the basic shape of the earrings, press them on well and paint the end of the attached part onto the FIMO base sheet.

If there are empty spaces, you can add more leaves in the places you want to cover. If the flowers are too far apart, you can use the beading needle to align them.

8

Take the pink grapefruit FIMO mixture, form 10 small balls from it and place them in the middle of each flower with the beading needle.

Now harden your earrings in the oven for 30 minutes at 110°C / 230°F top and bottom heat. Let everything cool down well. **Done!**

Material overview

What you need

Product	Article no.	Quantity
FIMO® soft 8020 T Oven-bake modelling clay - Single product pink grapefruit	8020-T20	1
FIMO® soft 8020 T Oven-bake modelling clay - Single product morning breeze	8020-T30	1
