

## Hand Lettering: Christmas menu lantern

### **Impatient to celebrate Christmas with your loved ones?**

We have a great idea that will help you to enjoy the wait. We show you how to create your Christmas menu in a few easy steps - and give it the popular hand lettered look, too! Draped around a lantern and decorated with a eucalyptus garland, this is guaranteed to be a real eye catcher at your Christmas meal.

## Step-by-step tutorial

1

Measure the height of your lantern glass and cut the doily to the required height using the cutter blade.

2

Draw light guide lines onto the doily using the geometry set square and pencil, to help you create straight and symmetrical lettering.

3

Use the black pigment liner (line width 0.5 mm) to create the lettering for the text of your Christmas menu on the doily.

4

Draw in Christmassy branches between your menu courses using the green and red pigment liners. Use the gold metallic marker to add highlights within and around the word, "Menu."

5

Carefully rub out the pencil guide lines. Caution: don't use the eraser on the areas where you've used the metallic marker.

6

Wrap the doily around the lantern and fasten at the back with masking tape.

7

Tie the eucalyptus spray around the bottom of the lantern and fasten it with cook's string.

**DONE!**
