

Pastel Cake Topper

Step-by-step guide

Print the templates and cut them out following the thin lines.

2

Then colour the rainbows and clouds any colour you want with [Textsurfer 364 pastel highlighters](#).

3

Tip: Use the [triplus fineliner 334](#) to accentuate them even more.

4

Next shorten the straw to the desired length and attach it to the back of the coloured template with super glue. Then place the second part of the template on top.

5

To make sure that the cake topper stays on the cake, glue a wooden skewer to the straw. The tip of the wooden skewer should protrude about 3 cm from the straw.

Overview of materials

What you need
