Stamped gift tags

10 MIN

Home-made gift tags give every present that personal, caring touch.
Whether it's for a wedding, a birthday or just because – these pretty stamped FIMO tags in delicate colours will delight anyone receiving your gift. It's quite simple: just roll out your FIMO, cut it out, stamp it, harden it – and you're done!

Step-by-Step Tutorial

1

Roll out a block of FIMO in your chosen colour into a sheet using the acrylic roller.

Tip: Work directly on baking paper so that you don't have to detach your design from the surface it is on and can put it in the oven without damaging it.

2

Cut out your desired shape using the cutter.

3

Then arrange the letters. Press the stamp into the FIMO shape and use the bead piercing needle to prick out a hole to hang the tag from.

4

Harden the tag in the oven at 110° C/ 230° F for 30 minutes. Then pull the thread through the hole to make beautiful decorations for your gifts.

Tip: Work in progress and left-over material should be protected against sun and heat and can be stored in a screw-top jar or in cling film to protect it from dust and dirt.

As an option: marbling
Form two 1/2 blocks of FIMO in different colours into balls and then into sausages. Twist the two sausages tightly together. Roll the twisted sausage into a ball and knead it until you have created a pretty marbled effect. Next roll the FIMO ball out into a sheet using the acrylic roller. When you've created a lovely marbled design, cut out the shape, stamp the tag with letters and complete.
