

Lettering poster "Gin tonic"

Not just for gin lovers! This lettering is a really eye-catching feature for your home. The best thing about it is that you design it yourself. But you don't have to be a calligrapher or a lettering artist: all you need to do is follow these step-by-step instructions.

An article by Claudia

Step-by-step tutorial

1

Print off the template for your desired design.

Shade over the back of the template with a soft pencil (e.g. Mars Lumograph 7B).

Tip: The template can be enlarged to whatever size you want at a copy shop, so you can even create A2 size posters.

2

Attach the template (front side up) to the top corner of your lettering paper using masking tape.

Then go over the lines with a sharp HB pencil, to transfer the design onto the paper.

Before you remove the template, lift up one corner to check that you have transferred all the lines.

3

Go over the outlines of the letters with the lightfast, black pigment liner.

4

Then fill in all the letters in black. Finally, rub out any remaining pencil lines.

Material overview

What you need

| Product | Article no. | Quantity |
|--|-------------|----------|
| Mars® Lumograph® 100 Drawing pencil - Single product 7B | 100-7B | 1 |
