

## Game: Travel Across the Galaxy

### Rules of the game

- Up to three players can start the journey!
- Select a green, blue or yellow counter.
- The youngest player starts. The players take turn to throw the dice (moving in a clockwise direction). Players move forward by the number on the dice.
- If you land on a special space, you have to follow the instructions for the corresponding colour.
- If another player is already in a space, you can move the other counter back one square.
- The winner is the first person to land exactly on the green planet.
