## Step-by-step tutorial

1

First, create the daisy petals in white acrylic paint using a flat brush. Make sure you leave space in the middle of the flower for the centre.

2

Using a fine brush and a little water, paint thin yellow lines on the painted petals. This will give the flower a more interesting look.

3

Now fill in the space in the middle with little dots of orange and yellow. Use acrylic paint and a fine brush for this, too. This will create a beautiful centre for your daisy.

4

Finally, decorate your picture with a silver metallic marker, adding little dots around the daisy. You can also use a brush and white paint diluted with water to add some little splatters to the background. And your artwork is finished!
